8	Nikhil Sharma	Gujarat	Kheda	• Khelo India: A gateway for budding Sportspersons • Best time for Indian sportspersons to make a mark	Sports is of utmost importance for development of health in the country. This is not a provision but an upcoming industry. Sports will help develop businesses for sports equipment, sport clubs etc. Not only business but it can provide even more efficient armed forces personnel.	My suggestion is to have more sports programmes in schools and villages. This will ensure better training is imparted from childhood and they can be monitored to get them into armed forces. Also sport person should have some kind of employment related to sports when they retire from that sport such as administrator, coach etc so that they don't feel unemployed.	09429534486	nsnikhil00@gmail.com

10	Nikhar Hirpara	Gujarat	Gir Somnath	India sets global narratives on Terrorism	Terrorism is the only thing our country is fighting for since independence. Every government had used its own strategies and ways to reduce terrorism and maintain peace in the country. But due to foreign policies and making the defence agencies free to take any decisions by this current government changed the scenario by whole. Whether it is surgical or air strikes or stopping international terror funding, india had set global narratives on terrorism.	<p>1) NCC training should be made compulsory in all colleges and universities.</p> <p>2) Youth exchange programs should be done with Jammu and Kashmir to bring Kashmiri youths to main stream again.</p> <p>3) Defence research programs should be start in every engineering colleges of the country.</p>	9099382803	16bcl003@nirmauni.ac.in
11	Meenakshi Sharma	Gujarat	Anand	India sets global narratives on Climate Change	I think India is doing good in reference to improving climatic conditions.. government is taking many step in improving climate like even odd policy to reduce pollution. In 2018 our Horn. PM Narendra modi got UN champion of the earth award from UN chief for the work and actions he has taken to improve climatic condions.	My suggestion to GOI is government has to take many such actions and must have to make policies like even odd in every states. Strict actions has to be taken for the indusry who are still polluting pond and rivers water such like high penalty amount , incentives to those who help government or taking any actions in improving climate condions or reducing pollutions.	8155039852	meenakshi.ms320@gmail.com
12	Raj kumar	Gujarat	Gandhinagar	India sets global narratives on Terrorism	<p>We should fight against terrorism at two front, outsiders and insiders who help them.</p> <p>We should try to get international support on this issue.</p> <p>There should be smooth relationship among state and central government to tackle terrorism.</p> <p>We should focus on the multi-dimensional nature or terrorism rather than economic theory of terrorism.</p>	No suggestion	9999737745	rajbhardwaj71292@gmail.com

14	Pradip Hemendrabhai Upadhyay	Gujarat	DEVBHUMI Dwarkadham	India sets global narratives on Terrorism	Terrorism like a big tree; it means all of terrorist together destroy peace etc. Terrorism is base of terrorist like base of tree . In India in my opinion our three golden way -ARMY, NAVY AND AIR FORCE enough to protect our nation.shoulder like shield; Not only any country has these things. At last, India is largest democracy of world. So,unity of Indian people is greater than others countries which will help to fight terrorism.	Education and medical facilities at all level will help to eradicate these problems.	8128786937	pradeepupadhyay50505@gmail.com

21	Sahil jayantibhai prajapati	Gujarat	Gandhinagar	India sets global narratives on Climate Change	Global climate change has already had observable effects on the environment. Glaciers have shrunk, ice on rivers and lakes is breaking up earlier, plant and animal ranges have shifted and trees are flowering sooner. Effects that scientists had predicted in the past would result from global climate change are now occurring: loss of sea ice, accelerated sea level rise and longer, more intense heat waves.	We need to step up our use of clean energy like wind, wave, tidal and solar energy Fortunately, there is practical, achievable action we can take now to minimise the amount of greenhouse gases reaching the upper atmosphere. What we need is a low carbon economy with minimal use of fossil fuels. And our research shows that we already have the potential to produce everything we need to get us there – we're just lacking the political action and investment to support a clean energy future.	6356042293	sahilprajapati6356@gmail.com

52	JAYKUMAR	Gujarat	BANASKANTHA	India sets global narratives on Terrorism	Terrorism found in India includes ethno-nationalist terrorism, religious terrorism, left wing terrorism and narco terrorism.A common definition of terrorism is the systematic use or threatened use of violence to intimidate a population or government for political, religious, or ideological goals.The regions with long term terrorist activities have been Jammu and Kashmir, east-central and south-central India (Naxalism) and the Seven Sister States.Media reports have alleged and implicated terrorism in India to be sponsored by Pakistan, particularly through its Inter-Services Intelligence (ISI).SATP (South Asia Terrorism Portal) has listed 180 terrorist groups that have operated within India over the last 20 years, many of them co-listed as transnational terror networks operating in or from neighboring South Asian countries such as Bangladesh, Nepal and Pakistan.Terrorism is an anxiety-inspiring method of repeated violent action, employed by (semi-) clandestine individual, group or state actors, for idiosyncratic, criminal or political reasons, whereby the direct targets of violence are not the main targets. The immediate human victims of violence are generally chosen randomly (targets of opportunity) or selectively (representative or symbolic targets) from a target	India has offered a five-point formula including sharing of timely actionable intelligence and information related to movement of passengers for practical counter-terror cooperation among UN member states to fight global terror. No country can be considered safe from terrorist acts. Today, terrorist entities have links and operate across borders building networks; raising funds in various ways including internationally; propagating their ideologies of hate; recruiting from foreign lands; sourcing arms and weapons from distant providers and smugglers; exploit modern communication	8238473893	jaytrivedi634@gmail.com

58	Fenil modi	Gujarat	Gandhinagar	India sets global narratives on Climate Change	CLIMATE change is confusing. It's either the end of the world and we're all going to die. Or it's an overblown threat involving "warmists" and the "IPCC". Climate change and global warming, the two are the same thing. It is the world getting hotter. No one doubts it is happening. The last decade, 2000 to 2010, was the hottest on record. The big controversy is about what is causing it. Warming up the planet is like knocking over the first domino. It has massive knock-on consequences which can affect all of us.	Push for reduced methane emissions from fracked gas Methane is 84 times more powerful than carbon dioxide over a 20-year time frame. Leading scientists estimate this gas alone is responsible for one-quarter of the observed changes to Earth's climate. Recent research suggests that methane emissions from the oil and gas sector (mainly fracked gas) is a much greater problem than reported. Cutting methane emissions is one of the cheapest, easiest and most effective things that governments can do right now to tackle climate change.	7069477465	modif2712@gmail.com

68	Nirpam Rajesh Agarwal	Gujarat	Surat	India sets global narratives on Economic Offenders	Since independence, India has transformed itself from being colonised to independent to liberalised and today we stand as the fastest growing economy in the world. But to remain at this position we will have to deal positively with economic offenders.	I would suggest that we should expand the powers of NCLT to un-listed companies also. NCLT should also be given powers to adjudicate CAs and CS in default matters of their clients. Secondly the audit engagement of companies should be assigned by third parties and not the company itself. These would lead to better independent reporting in the audit report as their would be no direct relationship between the auditor and the company. The Auditor then can directly report the frauds and errors to the government authorities.	8264778698	agarwalnripam@gmail.com

504	Sakshi singh rajpoot	Madhya pradesh	Shahdol	India sets global narratives on Terrorism	आतंकवाद का सबसे बड़ा कारण बेरोजगारी है, और इसे अशिक्षा ने भी बढ़ावा दिया है। भारत की आधी जनसंख्या इस देश के नवयुवक है, अतः इस देश के नवयुवकों का कर्तव्य है कि वह एक शिक्षित एवं जागरूक समाज का निर्माण कर आतंकवाद को समाप्त करने में अपना योगदान दे।	भारत जैसे विकासशील देश में बेरोजगारी तथा अशिक्षा को जड़ से समाप्त करने के लिए नए नए कार्यक्रमों तथा योजनाओं का संचालन करना चाहिए। और आतंकवाद केवल भारत के लिए ही नहीं अपितु सम्पूर्ण विश्व के लिए खतरा है। अतः आतंकवाद के खिलाफ सख्त से सख्त कार्रवाई सरकार को करना चाहिए।	6263126677	Sakshi3095singh@gmail.com

517	Vaishnavi Singh Kansana	Madhya pradesh	Jabalpur	India sets global narratives on Terrorism	India, with its surgical strike and "Hug Diplomacy" is indeed tackling the problem of terrorism in not just it's frontier lands but throughout the world.We are intolerant towards terrorism which strengthens our big brother image in South Asia and further strengthens our hold in claiming a permanent membership in UN security council.But US's decision to withdraw troops from Afghanistan pose a threat to India's security .	We must not lose our control on Afghanistan as it is a strategic location for us to counter the chain of pearls and Pakistan's terrorism.As US will withdraw it's troops the terrorist organisation will become more active and it'll take over the present Tajik govt. We must exploit our ties with Iran to bring the terrorist organisations of Afghanistan in our favour or else they'll be on Pakistan's side and with China's support work for India's destruction.The Tajik govt is immensely influenced by Russia so it's best to have a dialogue with the other ruling power there through Iran.Again we must not rely on US as US can anytime leave us in	9754671371 vishu.singh.kansana@gmail.com

525	Pranjali Yadav	Chhattisgarh	Bemetra	India sets global narratives on Economic Offenders	Indian government has recently set many global narratives including the 9-point agenda on fugitive economic offenders presented by india at G-20 submit and has also taken several steps at national level by introducing FEO bill 2018 . Our government is taking transformational initiatives regarding this and only effective implementations is the requirement of this hour .	My suggestions are: 1. More strict laws should be made globally to BOYCOTT TAX-HAVEN countries . 2. A sense of COOPERATION should be inculcate among all countries So that ERADICTION process can be made less CUMBERSOME AND TIME-TAKING. 3.The FEO bill 2018 should implemented effectively. 4. Under SEC-5 of FEO ,it is given that ""The attachment of property will for a given period of time, which can be EXTENDED BY SPECIAL COURT "" .This extension will lead to delay and may stretch proceedings. 552	Shivangi agrawal	Chhattisgarh	Balodabazar-bhatapara	India sets global narratives on Climate Change	India have signed number of treaties like Paris agreement, Kyoto protocol, Rio summit, and government is still taking number of steps but still these things are not known to the people at ground level, so instead of creating more policies, focus should be on how we can join more people with us, work collectively.	These can be done only by in person communication because still residents in village are illiterate. Government put posters or paintings on walls but thats of no use to most of them, because they dont know to read. Another thing what we do, is digital promotion, but how can we expect people in villages who dont have meals for two times a day, to have a television or even they have, most them dont know, how to operate. So, the NSS, NCC volunteers, PLVs must be put into regular duty to impart information at ground level. What government has done is enough, to create policies and all, the time now is to join villages with us, make	08085163344	shivangiagr389@gmail.com

596	Pranat Kumar Panda	Odisha	Kalahandi	India sets global narratives on Terrorism	<p>Even terrorists are in less number, we are step back at the first time. As we are realising our power.</p> <p>Their strategy is just to create mental terror (not Physical), which is more productive. This can be solved only by a unique and Powerful Mindset of all individuals.</p> <p>We need to strengthen our layman power and activate their inner power.</p> <p>We have to ignore internal disputes.</p> <p>We need to create suitable situations for the youngsters of India joining in terrorism activities.</p> <p>We may discuss the problems with them,i.e., mainly Unemployment.</p> <p>Youngsters should struggle in life as they are energetic enough to fight against all odds.</p> <p>We can eradicate the terrorism only by the gang of youth, but we need to clinch them, we need to activate them and make them realize their capabilities.</p>	<p>We need to create a unique ideology and mindset among all citizens.</p> <p>We need to create all sorts of facilities of employment by which the rate of immigration will decrease to a lot.</p>	7653903676	pranatkumarpanda2000@gmail.com
597	Janvi sharma	Odisha	Sambalpur	India sets global narratives on Terrorism	<p>The whole world is looking and standing by india the way the nation is dealing with terrorism sponsored by its neighbouring nation. Its no tolerance policy and defensive-attacking policy is standing extremely appropriate. In the past 4 years each citizen has united to fight against the evil of terrorism both physically and mentally, and have thoroughly recognised the real face of its enemy. When terrorists thought of breaking us, terrorism has united every part of the nation. We are now setting benchmarks at global level and firmly determined to root out terrorism.</p>	<p>One of the first thought that comes is that proper guidelines should be given to every netizen on proper and sensible use of social media, as we all know its a platform that can spread rumors and create disturbances within the country.</p> <p>Secondly it may be less of a suggestion but more of a request that opposition parties must stand by the government in power in context of national security. We can fight our enemies outside the nation but we will breakdown if unethical politics is played with the nation. Lastly, priorities should be given on isolating our enemy countries through diplomacy and creating pressure on them to</p>	8249600946	Avi8182215@gmail.com

602	Amit Kumar Nayak	Odisha	Cuttack	• Khelo India: A gateway for budding Sportspersons • Best time for Indian sportspersons to make a mark	A very good and well managed thought from honourable Raj Vardhan Singh Rathore Sir which is a gateway for new sportsmens in India. From different states brilliant talents are coming and making impressive marks in the history of Indian sports.The manifesto "5 minutes aur" defines that if today the children play 5 minutes more then they will have a millions of extra time for playing and making them perfect in sports events.And finally it will help India to get more and more medals not only in Asian games but also in Olympics. So Khelo India is the most impressive thought for the betterment of sportspersons in India. "KHELO INDIA , BADHO INDIA"	Khelo India games should be promoted more and more in rural areas . Basically youth ones should have eagerness towards different sports events. As youth ones are the future of our country, they should create awareness among people and make them know about Khelo India Games.Primary investigations should be made for the selection of sportspersons to upper levels. Lastly, a sporting country is a better developing country,so we should make our sportspersons more efficient by giving them right chances and training.	7381778732	amitkumarnayak527@gmail.com
603	Aditi Akankshya Priyadarshini	Odisha	Jagatsinghpur	India sets global narratives on Terrorism	Terrorism being a huge domestic as well as an international concern these days. India surely has put a narrative as a zero tolerance to it. Being a member of UN peace corps India had always pleaded with peaceful compromises. But this time the counter approach to the terror gave a tight slap to the face of jihadis. Mainly the terrorism is a major cause of the anti national feeling as well as the lack of moral interest among the people.	India need to create a nationalistic moment across the country for the betterment of the people. There should be quick enforcement and implement of the orders against such condemns More over an immediate counter work to be done against it	9853056934	akankshyaaditi@gmail.com

637	Monalisa Bagarti	Odisha	Bargarh	India sets global narratives on Economic Offenders	Economic offender are responsible for weak economic condition of the nation . Because they are look to himself for their development ; not nation oriented . They exploit the nation through black money , in the last movement they are going out of the country side with taking a lots of money with them. In India Nirav Modi ,Mehul Choksi ,Vijaya Mallya are the economic offender .They are the national offender for they are earn money from wrong way that is the black money .	Now the time is come across for stop the economic offence for building a strong economic country to India . For this avoiding of economic offence the immediate step must be taken & utilized . So in the mean time the economic offender are not seen in India & India become a developed country from developing country like USA . 696	Lavpreet Kaur	Punjab	Fatehgarh Sahib	India sets global narratives on Economic Offenders	India has indeed set global narratives on Economic offenders. In the recent G-20 summit, a 9 point agenda against fugitive economic offenders was discussed and India took representation of the same asking for global support for this huge step to be taken. So, the economic offenders could be divided into two main categories. The first category involves those offenders who loot the country and then fly away , also called fugitive economic offenders. It is approximated that there are 28 fugitive economic offenders that have left India and are living in various other countries.To quote specific examples, Mr. Nirav Modi, Mr. Vijay malya are the most popular ones. Indian Govt., by taking relevant steps has set a global narrative on these criminals. One of the highlights is the Fugutive Economic Offenders act of 2018. But what about those economic offenders that are looting the nation constantly and are living inside the country. They are the bigger criminals. They are the termites that are eating up the countries wealth from within. The Government Of India has taken strict steps like Demonetisation and One Nation one tax to fight with these problems. The latest Reserve Bank of India (RBI) annual	Suggestions for setting global narratives on economic offenders could be as- (1)Fast trials for those who are declared economic offenders , in a sense that their property must be confiscated faster. This will not give them a chance to run away so easily. (2) The counties to which the economic offender run (let say, from India itself), they must give the custody of such economic offenders to their county. So, an International law must be established such that the economic offenders from any county flying to any other nation, their custody for trial must be given to the country from	8288986864	klavpreet06@gmail.com

Now law has become stronger than earlier so it's not easy for people to commit economic crime. They are equally culprit as others.	During elections government or political parties should not promise to anyone regarding relaxation in loans. It creates a negative environment and those who can return loan, also don't follow the process because they think after ellection they need not to pay it back. Through this initiative we will be able to recognise talent at a very young age and can work upon improving it through best training and guidance.	My suggestions regarding this initiative is that measures should be taken to promote sports on media as well. The coverage of not only a selected number of games but of every game should be shown in the news as well so that we can be aware of the players who are making our country's name shine in various sports. 768	Baljot Singh Maan	Punjab	Ludhiana	India sets global narratives on Climate Change	Climate change is a serious issue plaguing our motherland. India being an ecologically diverse country, is at a high risk of incoming threats due to an average increase in global temperature. As being a developing country, there are many other issues that need to be resolved before focusing on climate change. But still many initiatives have been taken by our government to mitigate the effects of changes in the climate. Initiatives like Ganga Action Plan, Swachh Bharat Abhiyan, Odd-even policy of car use in Delhi, etc. have been instrumental in reducing the impact of global warming and climate change.	Renewable energy resouces such as solar energy, wind energy, hydroelectric energy, etc. should be used in place of non-renewable resouces. Emission of green house gases from industrial and other sources should be stopped. Reforestation policies should be adopted and forest cover shall be increased. Agriculture and allied sectors are a major source of pollution and these also degrade the natural resources, therefore they need to be practised sustainably. Instead of spending public money on statues and monuments, it should be used for the conservation of nature and natural resources.	9988618208	baljotmaan25@gmail.com

This scheme definitely helps Indian sportspersons to achieve great goals.	This scheme must be focused more on the school level implementation of sports and games. Because talent can be found easily in the school level also children can start pursuing their favourite sport right from the childhood which gives them more time to practise and excel in their favourite field. But ironically many schools in India doesn't even have a playground. The government should take strict actions against these schools.	8885568282	lokesh.burma@outlook.com

They often aim to influence or exert pressure on governments and government policies but reject democratic processes, or even democracy itself. 3 Terrorism in the broadest sense, the use of intentionally indiscriminate violence as a means to create terror among masses of people or fear to achieve a religious or political aim. It is used in this regard primarily to refer to violence during peacetime or in war against non-combants. 4There are many types of terrorism such as STATE SPONSORED TERRORISM- which consists of terrorist acts on a state or government by a state or government. DESSENT TERRORISM- which are terrorist groups which have rebelled against their government. Terrorists and the left and right ideology. 5 There is no religion of terrorism . Terrorists does not belong to any of the religion . They have no emotions no .In other words they don't want peace .They only want to spread hate all around the world.	1 All the peoples of every country should work against the terrorism. It is a national issue. 2 Everyone should be aware about the harmfulness of terrorism and everyone should know that terrorist groups only wants to manipulate peoples just because to spread hate. 3 We should prepare against this social issue . 4 People who think terrorism and terrorist belongs to any religion . 779	Mehak Sood	Punjab	Ludhiana	India sets global narratives on Economic Offenders	This is a serious issue as its not only draining our country of its wealth that belongs to the general public but also deteriorates our image nationally and internationally .Indeed the government is playing a 'Chawkidar' but the need is for more stern action in collaboration with countries to which they fly away. They are no less than the terrorists who are killing people by robbing of their hard earned money . Steps like presenting a 9- point agenda against these fugitive economic offenders in the recent G-20 summit at Argentina are appreciable . However, prevention is better than cure . So ,first one should eliminate every chance letting them secure so big amount in shape of loans and then flee the country . Secondly if they succeed to escape , one should follow the words that Pt. Jawaharlal nehru Ji uttered in commission i.e "No Vakeel , No Appeal and No Daleel " which serves the best tactics for these cheaters .	Whenever loan is given in such big amount then timely review and checks after every one year or depending upon the duration of the loan should be made on the activities so the immediate action can be taken if the funds are deviated towards other personal uses etc. Timely arrangements and provisions of documents should be made to get them back		mehaksood399@gmail.com

There is a need to bring a revolutionary change so that we can stop our country or whole earth from being degraded. For this firstly we have to bring the change in the education system as education is the basis of the moral character of a human being. From primary school till higher studies one must introduce a subject that teaches the students to remain attached with their culture ,there must be practicals on a weekly basis for the children as children's are the engine room of our society Also youth must be motivated from time to time by organizing such competitions as national youth parliament ...here the youth can present	9876883478	Meghna.dogra189@gmail.com

803	Z.A.Shafreen.Syed	Tamil Nadu	Trivallur	India sets global narratives on Economic Offenders	Economic offenders are those who borrow money as loans and doesn't pay back and leave the country in order to escape. The Economic Offenders Act states that persons are asked to return India and an arrest warrant has been produced against them. More than 10 persons fall under this act and currently actions are been taken against them.	My suggestion is that the bank officials would know the persons who have high rate of loans borrowed and with high value of assets and so they should prohibit sanctioning loans than a certain limit to people with high income and also file a case study once when they notice a non payment of such holders. Further people with really low income should be given more perference and additional incentives should also be provided for farmers and lower level workers of India. Doing so will boost India economic status and also reduce poverty in a higher scale. I also suggest schemes to be drawn against such offenders and law & order	6369784153	shafreensyed07@gmail.com

Though India has given its best and received awards, it has achieved 4th place in worst environmental progress, which still alarms us our duties left behind. We are passing bills against pollutants but we forget the negative impact that will be caused on people. Reduction of personal vehicles may be encouraged. strict norms for buying vehicles may be done	We have to take preventive measures for people's economic stability and then we have to introduce eco friendly products like reusable silicone coffee cups, eco touch screen computer, eco laptop, eco friendly umbrella, rPET backpack, wooden watches, wooden sunglasses, green fireworks, green buildings and designs, etc. It will help both our environment and our economy with its GNP.	8681808458	tehildavidsingh@gmail.com

I am exquisite to say that attending National Youth Parliament as a delegate was really a marvellous experience. In the DYP i represented my views on the topic "INDIA SETS GLOBAL NARRATIVES ON TERRORISM" where i told how india sets global narratives on terrorism and also suggested the ways to destroy the terrorism from its roots, i believe that Indian Armed Forces and other security agencies are well aware to deal with outer terrorism, but we should try to scan and delete inner viruses of the country, yes there are some traitors inside, the corrupt politicians, corrupt policemen's, corrupt doctors, corrupt teachers are not other than a virus in the system, yes because of one person the whole community got blamed, that should be avoided and strict action should be taken against such corrupt traitors. We should work towards developing a feeling of unity among Indians, more and more ways should be adopted to develop national integration. Government should take necessary steps to empower unemployed youth in financial as well as social ingredient. Educational reforms should be taken in favour of defence forces as well as Humanity.	1. 976	ATUL KUMAR SINGH	Delhi	NORTH-WEST	India sets global narratives on Climate Change	<p>1. Climate change means the changes in climate due to either natural factors or the anthropogenic factors.</p> <p>2. If we talk in today's reference, climate change is towards warming of the earth, largely due to anthropogenic factors.</p> <p>3. Problem arises when the amount of Green House Gases is increased than their optimal quantity by human interventions like cutting of forests, industrial releases, transportational releases, large scale fossil fuel use etc.</p> <p>4. This climate change has signs like rise in average temperature of the earth, and consequently melting of glaciers and ice caps, rising sea level, heatwaves and loss of biodiversity. It will adversely impact on Indian agriculture (as highly frequency of droughts & floods) and fisheries sectors on which a large population depends.</p> <p>5. This has disturbed the equilibrium. Now we have made the green house gases accumulate in the atmosphere in larger quantity on one hand, and destroyed their sinks on the other. This has led to greater trapping of sun's radiation by the atmosphere and consequently greater warming of the earth.</p>	<p>1. Climate change is a global problem. Besides the natural forces, human activities have also contributed majorly to this change. While the natural forces cannot be controlled, human beings must ensure they control the activities that lead to negative impact on the weather in order to maintain harmony on the Earth.</p> <p>2. Establish Solar Park, , Thermal Energy Plant in all the states initially (just Like BEST in Andhra Pradesh), Encourage the Electric motor vehicles, Wind Energy, Bio energy (Bio-fuel etc.) Encourage the Research and Development activity and establish laboratories for Eco-friendly Technology-</p>	8368302637	atulksingh386@gmail.com

998	Nida Fatima	Jammu and Kashmir	Ganderbal	India sets global narratives on Economic Offenders	As the bill related to Economic offenders was passed recently . I found it a very good step from the government as it will not let the offenders avoid the prosecution. Government has to put some extra pressure while handling with these offenders . Govt should go through the zero tolerance policy approach against economic offenders to send them behind the bars .	My suggestion is to ammend this bill a little bit. As govt of India has set the amount of 100 crore rupees to declare anyone as an economic offender. But what about the one who has laundered the money below 100 crore rupees. Bill should be ammended and set the amount of 50 crores to declare someone as economic offenders . Zero tolerance approach should start at ground level .	9622905137	nidafatima.wih@gmail.com
999	Anu Chauhan	Haryana	Panchkula	India sets global narratives on Terrorism	Terrorism poses a significant threat to the people of India. In India terrorism includes religious terrorism, cross border terrorism, ethno-nationalist terrorism, left wing terrorism, narco terrorism.Terror attacks till now have claimed significant number of deaths in India. Terrorism in all its manifestations should be un acceptable and can never be justified. Therefore, india has evolved improved strategies to combat and counter terrorism.	India has been consistent in stating that India will not allow any third party to settle the disputes as stated in Simla Agreement. Therefore, stopping terrorism would require tackling issues such as cutting off funds, border controls, addressing radicalisation, etc. Systematic checks on external borders on all people entering India should be taken care of.The spurt in infiltration should be met with a strong response from Indian security forces. The people of such states as Jammu and Kashmir , Manipur, etc should be made part of India by introducing various developmental schemes providing them with economic opportunities	8901188157	bishnoi.pooja@gmail.com

1000	Vikash Kumar	Delhi	East Delhi	India sets global narratives on Terrorism	<p>आतंकवाद, किसी भी स्थिति में किसी एक राष्ट्र का निजी मामला नहीं हो सकता। यह पूरे विश्व के लिए एक दानव के समान है जो दिन प्रतिदिन अपना दायरा बढ़ाने की कोशिश करता नज़र आता है। ध्यान देने योग्य बात यह है कि जब अमेरिका, रूस जैसे शक्तिशाली देश खुद को आतंकवाद के दुश्मन मानते हैं और उसके खिलाफ युद्ध छेड़ने का दावा करते हैं, फिर IS, AL QUIDA, JAISH-E-MOHAMMAD, जैसे आतंकवादी संगठनों के पास इनके देश में बने आधुनिक हाथियार तथा गोला बारूद कैसे है?? Proxy war लड़ना और उसमें आतंकवाद का सहारा लेना, हमारे देश की सभ्यता कभी नहीं रही। ये सब उन्हीं देशों के कुकर्म हैं जो खुद को शक्तिशाली तथा विकसित कहलाने का गौरव प्राप्त करते हैं। आज आतंकवाद का यह भयावह और घिनोना चेहरा हमारे सामने नहीं होता अगर अफगानिस्तान से रूस को खदेड़ने के लिए अमेरिका ने तालिबान का सहारा नहीं लिया होता। या ईराक में सद्दाम हुसैन की सरकार को गिराने के लिए इसका सहारा नहीं लिया होता। या पाकिस्तान भारत के खिलाफ कश्मीर के मामले में आतंकवाद को नहीं पालता पोषता। जो यमन में सऊदी अरबिया और ईरान proxy war लड़ रहे हैं, वो बहुत ही निराशाजनक है। आज राष्ट्रीय या अंतर्राष्ट्रीय मंच से आतंकवाद के खिलाफ हुंकार भरता अगर कोई देश नज़र आता है तो वह है भारत।</p>	<p>1) आतंकवाद को किसी देश पर बमबारी करके नहीं खत्म किया जा सकता है। क्योंकि अगर ऐसा होता तो अफगानिस्तान में अमेरिका निराश नहीं होता, अगर ऐसा होता तो ओसामा बिन लादेन के खात्मे के बाद आतंकवाद का नामोनिशान मिट जाना चाहिए था। परंतु ऐसा कुछ नहीं हुआ। अगर आतंकवाद को खत्म करना है तो इसके जड़ को काटना होगा। इसके सोर्सज को खत्म करना होगा। आज जो सऊदी अरब यमन में कर रहा है वो आतंकवाद को खत्म करने के लिए नहीं कर रहा बल्कि उसके नाम के आड़ में अपने दुश्मन को खत्म कर रहा है।</p> <p>2) अब आतंकवाद को परिभाषित करने का मेरा हमारी भारत सरकार से ये अनुरोध है कि वो हम युवाओं के लिए ऐसे प्रोग्राम चलाये या कोई app बनाये, जिससे राष्ट्र के युवा डिप्रेशन जैसी बीमारियों के चोट में न आए। इनके लिए कोई स्थायी समाधान ढूँढे। भारत जैसे राष्ट्र जिसके पास विश्व की सबसे अधिक युवा शक्ति है उसका सही मार्गदर्शन आवश्यक है। अन्य संस्थाएं तो इसके लिए कार्य करती हैं परंतु यदि यह कार्य भारत सरकार करे तो इसका प्रभाव महत्वपूर्ण होगा। चूंकि जब हम मानसिक रूप से सशक्त होंगे तब हम किसी भी समस्या का समाधान निकाल सकते हैं। धन्यवाद।</p>	9716357780 kashyapvikash73@gmail.com

1002	Katyayinee Richhariya	Delhi	East Delhi	India sets global narratives on Terrorism	I believe that India has been , to a great extent , successful in creating the narrative against global terrorism with Shanghai Cooperation Organisation endorsing India's working paper on CCIT (convention on countering International terrorism) in 2018. We have strongly rejected the binary of good and bad terrorism at every international forum from ASEAN , SAARC , BRICKS or UNSC. However, when India shirked it's role from an active intermediary to a passive viewer in negotiations between the Taliban and The Afghan Government last year , we failed to live up to the very narrative which we had created by giving way to powers like US for further interference.	Instead of categorising any person or group of person as terrorists, we need to first understand why did they become terrorists. Legitimate demands pertaining to backwardness of their regions should be addressed properly. We need to understand how is Pakistan able to brainwash our youth against their very own state and thus start a process of undoing that brainstorming. Terrorism should include newer dimensions like mob lynching and should include excesses on the part of state agencies also. Terrorism can only be tackled when world will be legitimately united against it , with a proper balance of barrel of gun	9560279474 raghuveerr2010@gmail.com

1005	Shalini Chib	Jammu and Kashmir	Kathua	India sets global narratives on Terrorism	Terrorism is a curse for India which needs to be eradicated as soon as it could be. Attacks like parliament attack, Mumbai attack, Pulwama attack, etc. made our country colored with red but with the strikes like surgical strike and air strike, it seems that India will soon become a terrorism free country.	Each and every citizen must understand that how necessary it is to eradicate terrorism. It is a sad truth that in our country also there are some poeple or groups who are helping terrorists. Thus it is very important that we take steps to conquer these people first. 1050	Debanjan Chamlagain	Assam	Sonitpur	India sets global narratives on Economic Offenders	India is facing problems of Economic Offenders mainly in these years where many such people have left our country. Our Govt is constantly trying to check such problems. Fugitive Offender Bill along with the success to bring back Vijay Mallya(one step away) are examples of success by the Indian Govt and also the intention is clearly shown by them. Corruption has been always the reason for creating loopholes in the system in any sector , such things not only hinders the smooth running of system but also stops the developmental works. So anything done to stop such problem is appreciable but the number has increased in these four years, this thing need to be kept in mind too.	I think Youth Parliament should be done in a real parliament manner instead of the process that is followed. A speaker, ruling party, opposition should exist which would result in real mock parliament. And to stop economic offender I think Govt should follow zero tolerance policy and there should be Lokpal Bill covering high profile businessman whose all information would be known by all. Anything wrongdoings will be known by both officials along with common people and there would be full transparency in the system.	6900136579	debanjanishappy1998@gmail.com

1064	Mangesh Kalwar	Assam	Hailakandi	India sets global narratives on Climate Change	India has set high goals for promoting renewable sources. The solar alliance with France and many other initiatives at grass root level like the Swacha Bharat Abhiyan and all will surely help India to control the climate change that it is contributing to.	The products that uses renewable sources must be promoted by the government at an affordable price so that more and more people can come together to join this change. There must be regular check on the factories, vehicle etc., that are producing high toxic gases. The tax for goods that are made by trees and plants except medicines and other essential things for lives, must be increased so as the people know the products value and utilizes the same more efficiently. Awareness camp by the government should be organised and the people who have contributed to cleanliness of the nation in anyway,	+916900661188	mangeshkalwar1024@gmail.com

1066	Loitongbam Thoithoi Singh	Manipur	Imphal East	India sets global narratives on Climate Change	This is one of the most important topics to discuss in such a fast changing world. Climate change is a problem whose consequences are not local but global. We are responsible for this change. And we have to do a lot to save our earth.	Awareness about the cause and effects of climate change should be given in every nook and corner of the country. India needs to focus in generating power from solar, wind and many other renewable energies, as coal still accounts for 58% of India's power. Decisions should be made by every countries of the world for zero emission mission and committing to strictly obey it.	8787841026	thoithoipaul@gmail.com

1067	Dorang Dekamra M Sangma	Meghalaya	Tura	India sets global narratives on Terrorism	Terrorism is a global phenomenon, and not only India is affected by terrorism. The recent answer to Pulwama attack by India does a set a global narrative that India does not tolerate terrorism and will do everything in its power to uproot it. The attack united the whole nation and only when we are united irrespective of our caste, religion, color, can we be able to response effectively. Communalism should be abolished.	I liked the topic. Nationalism and global citizenship should be taught in schools and colleges. Our international boundaries and state borders should be properly protected and state boundaries dispute should be dealt as early as possible. But only terrorists attacks should not unite as one, all Indians should be united in every cause that is beneficial for us, nothing should divide us.	7005228727	dorangmankin@gmail.com

1069	ASHRAFUL ALAM BORBHUYAN	Assam	HOJAI	India sets global narratives on Terrorism	No country can be considered safe from terrorist acts. Today, terrorist entities have links and operate across borders building networks; raising funds in various ways including internationally; propagating their ideologies of hate; recruiting from foreign lands; sourcing arms and weapons from distant providers and smugglers; exploit modern communication technologies that dissolve distances. They are able to select targets of their choosing in countries of their choosing; cross borders often with help from state agencies; and inflict terror on innocent peoples... India has had to face the scourge of terrorism, mostly originating outside our borders, increasingly over the last two decades. Our counter terrorism agencies have developed considerable expertise in preventing such attacks and bringing the perpetrators of such terror attacks to justice," she pointed out referring to India's long-standing concerns over cross-border terror.	First tackle corruption and money laundering in India- itself. This is the main sector which is "buying" any such thing and many unwarranted things. In the process of money being stashed and brought in "for use", and money being poured into sectors which are swamps for money laundering absolutely no monitoring seems to be there and is the thriving ground many "such activities" predominantly terrorism, buying arms, trafficking, drug dealing and peddling. All the proceedings of these exchanges is happily going into all those activities. Even not so close monitoring could also yield fruitful results with tackling Money	09101269913	ashrafulalamborbhuyan@gmail.com

It is true that government has different acts for preventing terrorism but I don't think they are implemented properly,if they were then why did the pulwama attack take place? Do we have to wait for a terror attack to take place so that we can prevent it even though we know that terrorism exists?	It is not easy to end terrorism but if we want to then we must try to remove it from the base . 1078	Bikrant paul	Assam	Hailakandi	India sets global narratives on Terrorism	As we know terrorism is kind of action which harms the innocent people not in any particular country but in all around The world. In my point of view terrorism is arise due to the religious extremism. they are certain group of person they use they are particular religious scriptures to motivate the youths in the name of moral duty and we clearly find the example in Pulwama attack where young boy from Kashmir was motivated by the search extremist people to do so and after that you will gain heaven.	As I discussed earlier that terrorism is arise due to these religious extremism so my suggestion is if we tackle the religious extremism with National extremism not in a bad sense but in the sense that if we thought are kids from they are I primary level that how the country was gain Independence after thousand and thousand sacrifices of brave fighters and also thought them proper moral duties and also if we added an new chapters in the syllabus of primary classes regarding our countries freedom struggle and after that when are kids aware the natural heritage culture freedom struggle after all this things they startes feel proud on their Nation	9101944563	Bikranthpaul75@gmail.com

The climate is so sensitive that even adopting climate sensitive scenario would lead to an increase of 2.4 degree celsius by the year 2100. And South Asian countries especially, India, Pakistan and China will be impacted the most as it stands in the 'hotspot' domain.	India should also invest in boosting energy efficient resources as adopted by countries like France which has planned to ban all petrol and diesel vehicles by 2050 and the US which has managed to reduce its greenhouse gas emissions by switching to natural gas. 1102	Madhurjya Deka	Assam	Nalbari	India sets global narratives on Terrorism	India has already set global narrative on terrorism by taking lots of actions against it. To avoid terrorism in some states AFSPA had been implemented. In 2016, in revenge of Uri attack, surgical strike had been done by indian army. Recently air strikes has been done by the indian air force against militant group jaish-e-mohammad.	India should continue taking bold decisions against terrorism like surgical strikes, air strikes etc. And the global military superpowers i.e America, russia, china, israel , japan and india itself should cooperate each other to vanish terrorism.	7002951249	Madhurjyadeka100@gmail.com

1104	Kangngaudaube	Nagaland	Peren	India sets global narratives on Terrorism	Terrorism, a threatening group of violence who threatens the public for political, religious or ideological goals. Mumbai attract on 26/011 the example of religious terrorism, an Islamic terrorist group operating it's base from Pakistan, bombarded Mumbai, killed 146 people, destroyed two prime hotels, one train station, and a Jewish chub house.	I suggest the Government to keep an eye on the youth and students who could possibly become the terrorist recruits. The government should have more careful check on the foreign traders and any groups venturing into the country, as a religious groups or as an NGOs from foreign lands.	9366324091	Kangngau04@ail.com

India have a sense of global responsibility and a sense of oneness among all human beings. The swacch bahart initiated by prime minister is a constructive outcome not only in village level but also in national level as well as global level .	The scheme swacch baharat needs more fund in village level . The government should need to make an strick law with regards to the cleanses and sanitation. With regard to air pollution all the transportions from clerks to officer should used government transport buses respectively. It's not about winning medal but to help bloom the sport spirit of India. To make India a sport super power.	I would suggest that khelo India should start organizing workshops and build it's own sport institute , also crosscheck to find more budding talents . From a personal view point A sport like shooting is very expensive. 1109	Meshanki sutong	Meghalaya	East Jaintia Hills	India sets global narratives on Climate Change	Climate change poses a fundamental threat to the places, species and people's livelihoods The question arise is that what make a climate change? It is a nature or we human being.... my answer is we the human being for the sake of our self satisfaction or some time to make our village , state, country developed..We tend to forget the danger for our coming generation we cut down trees, we make large industries which produce high chemical smoke.. vehicle ... Etc. This lead to climate change especially india has set a global narrative on this issue.	We should take a step as a responsible person to over come climate change.. 1. The Govt of India should strictly tell the state Govt to see this issue as a serious issue.. 2. No business gonna operate if they don't follow the rules and regulations of environment act, cause only imposing penalty is not ok.. why because business have more money to pay. 3. As a responsible person of country we should accept the suggestion of Govt. 4. 1115	Wetha Krome	Nagaland	Phek	India sets global narratives on Terrorism	Terrorism is usually understood as the use or threat of violence to further a political cause. There is no universally agreed definition of terrorism making it a difficult object to quantify. While acts of terrorism across the globe have increased markedly in recent decades, in most parts of the world it continues to be a relatively rare event and is instead focused in particular countries or regions of instability. Terrorism is not a 21st century phenomenon and has its roots in early resistance and political movements. It will be good if they give equal opportunity to everyone because in my district or hometown I have never see giving training to the younger generation.Many good players are there even in my area but due to lack of sports facilities they could not be promoted. In the state of Nagaland to choose sports as a career is just dream.Special attention must be giving to the rural areas too.The urban they have enough facilities but unfortunately the rural they don't have anything to udgrade themselves to become the greatest or best sportsperson though they have the capability.To play in khelo India I think fair selection should be conducted so	8974023824	Prelowetsah98@gmail.com

1126	Yongnyu	Nagaland	Longleng	India sets global narratives on Terrorism	terrorism in India is fraught with difficulty. India is a large, heterogeneous democracy that is surrounded by countries experiencing their own intense problems with terrorism. The legal structure, inherited from the colonial past, is struggling to cope with the demands placed upon it by a country of 1.1 billion. India is a federation and this also complicates the structures needed for counter-terrorism. Despite the democratic framework, policing in India is largely an inheritance from the non-democratic colonial past—a past that paid scant regard to the doctrine of separation of powers. Given these problems, India's performance in policing terrorism has been mixed. We should not look for any early resolution of the problem of terrorism, either through preventive investigation or political amelioration of the issues that contribute to terrorism. But for all of that, India has done well to adhere to its basic democratic norms in the face of what is, by Western standards, a major terrorism problem.	1.Proper border fencing to be maintain or build as done by the USA. 2.Indian media should maintain secrecy and decorum with regards to counter terrorism. 3.Government should make use of modern ammunition instead of always rellying on United nation's order. 4.Instead of spending billion of rupees on building statues, better provide bullet proof or other better military equipment. 5.like the Pakistani F-16, Indian needed good fighter jet.	8787699862	ayongyajem@gmail.com

1202	T Pardhasree Chaitanya	Andhra Pradesh	Krishna	India sets global narrative on climate change	In our country climate is changing rapidly because of high level of carbon in the environment. Increasing of vehicle activity, Industrialization are the major causes for climate change. Reducing the green cover is one of the main effects on our environment. Heavy usage of pesticides also causing global warming and threat to food security.	Strict implementation of Policy and guide lines are required. Introducing of EVs is mandatory. Old vehicles which are causing heavy pollutions are should be banned by the government. green industrial policy is required. Establishing of Polluting industries are should monitor strictly. Every month green day should be celebrate to plant the trees all over country by childrens, students, govt. officials and citizens of our country. These measures can reduce the climate change in our society.	9885665614	sreechaitanya04@outlook.com

1510	P NARESH	Andhra Pradesh	Vizianagaram	Economic offenders	Most of such cases of economic offences involve non-repayment of bank loans thereby worsening the financial health of the banking sector in India. The existing civil and criminal provisions in law are inadequate to deal with the severity of the problem.	Appropriate action will be taken to impound his property and dispose of the same. Just to ensure that the courts do not burden and decisions get delayed, we have kept a threshold of rupees one hundred crores, so that we can focus on big economic offenders.	9989481222	navishcera@gmail.com

1595	Vishal Ranjan Pandey	Telangana	Hyderabad	Khelo India	I think Khelo India is very good initiative by Government of India. It is initiated with view to provide games in the each and every students of the country. Games are essential for every individual. It not only give you the physical fitness but also mentally peace. Games help individual with good health and good thinking. Games help individual to inculcate good traits like team player and leadership qualities. Individual can learn integrity, creativity and critical thinking skills while playing gmaes. So games are really important for every individual.	I believe that it's implementation can be better because many of the schools are not providing this opportunity to students. Government should create more awareness about Khelo India.	9705709428	vishalranjanpandey@gmail.com
1596	Chennu Bhargavi	Telangana	Hyderabad	India sets global narratives on economic offenders	this topic is need of the hour because low income people are suffering by earning ethically but rich are happy by looting nations income, but it's an appreciable strategy of 9 point rule by PM and a bold step to save nations wealth	I feel that laws must be made much stringent with respect to dealing of high amounts by banks	9866000000	chennubhargavi@gmail.com
1597	Jakkuka Gayathri	Telangana	Hyderabad	India sets global narratives on economic offenders	There are many people who are making huge financial scams and hiding themselves beyond the jurisdiction of the India . Economic offenders act 2018 introduced by the government of India to bring them back to India .Introduction of the act is one the effective measure taken by the government .	my suggestion are every bank should verify the financial status of the individuals before granting the loan .and government should change the limit from 100 cr to 10 cr , we as the youth we'll help the government in the measures taken by them to bring the offenders back to India.	8333000000	gayathrijakkula925@gmail.com
1598	K. Harinatha Raj	Telangana	Hyderabad	India sets narratives on climate change.	Our world is under the control of pollution. Pollution is spreading its range widely day by day. Although the remedies are been taking by the government but, it's not happening in a certain way. Due to pollution there is an occurrence of volcanic eruption due to that melting point of ice Berg's due to that increase in sea level. Each and everything is interlinked. On this survey i came to know about lot of things.	one of thing I would like to suggest is, due to bulk usage of plastic environment is effecting a lot. And also for manufacturing of papers we destroy trees. Rather the destruction of tress, it would be better if we prefer recycled papers and cotton and jute bags in spite of plastic. Because cotton will be produced by plants and there's no need to destruct trees.	7387000000	khnraj2000@gmail.com

This topic was something I was personally interested to talk about and put forward my views towards it. It was a great opportunity to speak what we felt about the current situations and discuss the solution from the point of view of the young citizens of the country.	Improve the check on bank account holders and those asking for huge amounts of loans. 1604	D.Manojkumar	Telangana	Hyderabad	India sets global narratives on Climate changes	We know very well our climate is changing it leads to most polluted country.. According to recent reserches of "GREEN PEACE" organisation. India is the 3rd most polluted country in the world..And in top 10 polluted cities there are 7 cities from india..Gurugran first place, and second one is Gaziabad cities. Delhi is the most polluted capital in the world when compared to other capitals. And in top 30 polluted places india has 22 polluted places,in top 50 places india has 25 places..It is the present situation of india and it's climate.If we won't stop it. This leads to face dangerous situations in india.	No Suggestion	9505000000	manojdharamalla@gmail.com

1605	Oddiraju VamshiKrishna	Telangana	Hyderabad	Khelo India	It is too soon to tell whether the society is mature enough to cut past the corruption to support sports in India, but Khelo India is definitely a step forward in the right direction. This initiative has promised to provide 10,000 selected athletes with a sponsorship of Rs 5 lakh for eight years, which is expected to revamp the lost respect for grassroots sports in India. With the kabaddi league, U 17 football world cup, and the rising Stars in various sports, India has started to readily accept it's fondness for sports other than cricket. 1638	Prachi Sharma	Uttar Pradesh	Ghaziabad	India sets global narratives on Climate Change	The science is clear that human activities over the last century have contributed to greenhouse-like warming of the Earth's surface. Much of the global conversation around climate change fixates on what individual countries or regions are contributing to the problem, and what they will do (or not do) to reverse the tide.	Awareness among the people of the different countries regarding climate change. 1639	Prashant yadav	Uttar Pradesh	Ghaziabad	India sets global narratives on Terrorism	Prime Minister Narendra Modi used his london visit to transcend the negative discourse about his regime by projecting a confident and aspirational India, receptive to foreign investment and collaboration, while remaining wedded to its civilisational moorings. Hours before he unveiled the statue of medieval sage Basaveshwara on the banks of the Thames in lambeth borough, the savagery of terrorist attacks in Paris made the peddlers of 'Hindu Taliban' and 'Intolerant India' look like snake oil salesmen.	At Paris (COP 21), Mr Modi emphasised, the world must initiate a low carbon age for the sustainable future of the planet, and nations with the means and know-how must help meet humanity's need for clean energy and a healthy environment. 1641	Abhishek Kumar Singh	Uttar Pradesh	Prayagraj	India sets global narratives on Terrorism	India has been able to set narrative and shall be able to do so because our way of dealing with Terrorism is unique that is largely ideological .All other nations invariably enter into covert or overt negotiations with terror outfits but we remain aloof from it . Whole world was infested by ISIS but India is the only major nation to remain unaffected ,its because we fought psychological war on electronic media against them . Whenever a state enters into talks with any terror outfit it is bound to distinguish between GOOD and BAD Terrorism but we are unique--- being one of the biggest investor in Afghanistan inspite of our stakes we are totally against any kind of talks with Taliban .Thus ,Afghanistan have very noble sentiments about INDIA	1) Most of the topics discussed were already in public domain , so there is need to argue on those things which are still in pipeline viz Draft bills, Social issues etc 2)There were no solutions , no discussions , largely oratorical speeches in limited time of 2 min 3) There was no scope of questions it was a one way traffic 4)Most of the candidates were of NSS and some biasedness was reflected	9839058809	abhishek211019@gmail.com

1710	Shubham Gupta	Uttar Pradesh	Meerut	India sets global narratives on Climate Change	India is setting global narratives on climate change as India is pushing majorly in solar energy sector. The objective of the National Solar Mission is to establish India as a global leader in solar energy, by creating the policy conditions for its diffusion across the country as quickly as possible. Under the original plan, the Government aimed to achieve a total installed solar capacity of 20 GW by 2022. This aim is already achieved and India sets a new aim of 100 GW. India's solar power increased 5 times since last 5 years. Shakti Sthala, Pavagada, Karnataka, is one of the largest solar power plant in world.	India should continue it's push for solar energy, Currently India generates 75.9% of it's energy requirements by burning fossil fuels, which is not sustainable. We should invest more in hydro and solar power generation. India should set a target that by 2025 we should cut our fossil fuel burning to 50 % and generate 50 % from renewable resources.	8123725734	shubham.gupta666@gmail.com

1718	Vishnukant Chaturvedi	Uttar Pradesh	Azamgarh	India sets global narratives on Terrorism	India actually got a great success in exposing the culprit of this global problems. This problem of terrorism is basically an ideological problem that demand radicalisation on the basis of religion " jihad". We got a great example of Ahmed Wani who came in a mainstream and who got Ashoka chakra on Republic Day 2019. Through India's efforts, US enlisted Syed Sallauddin as a global terrorist. If we retaliated in the form of surgical strike and Air strike in order to give a strong message to this msg that we love peace but we can't compromise our territorial sovereignty.	We only exposed the culprits but at present we are unable to punish them globally because of China's veto at UN. So this can only be possible by strong and convincing diplomacy. We must take action as Israel takes, I think there should be a proper military rule in the terrorist prone areas of Kashmir. Various terrorists are sitting in Pakistan. I think there is need of heavy pressure on Pakistan so that through extradition these culprits could be in India. 1722	Shiv Kumar Vimal	Uttar Pradesh	Balrampur	India sets global narratives on Terrorism	विश्व के सबसे बड़े लोकतंत्र में इस महत्सव का आयोजन सराहनीय है। जनता के शासन में युवाओं की आवाज दिल्ली तक पहुँचना और उस आवाज का दिल्ली द्वारा सुनना यादगार अनुभव रहा। युवाओं का दृष्टिकोण औरों से अलग होता है। उस दृष्टिकोण का देश की व्यवस्था में सुधार लाने के लिए प्रयाग करना एक अच्छी पहल है। 'युवा संसद महत्सव' ने युवाओं में देश के लोकतंत्र का जानने-समझने की रुचि उत्पन्न की है।	अगले वर्ष इस महत्सव के आयोजन में ऑनलाइन प्रक्रिया का प्रचार बढ़ाना होगा। जिससे कि प्रतिभागियों की संख्या बढ़ सके। जिला स्तर से लेकर राष्ट्रीय स्तर के आयोजन में पारदर्शिता लाना बहुत जरूरी है। जिससे कि प्रतिभागियों की प्रतियोगिता में रुचि बनी रहे और यह आयोजन अपने उद्देश्यों की पूर्ति कर सके। अन्यथा ये मात्र दिखावा बन के रह जायेगा। आशा करता हूँ कि इन सुझावों का अमल में लाकर अगली प्रतियोगिता और अधिक प्रभावी भूमिका में आयोजित की जायेगी। मेरा विश्वास है कि 'राष्ट्रीय युवा संसद महत्सव' हम छात्रों के दृष्टिकोण में लोकतांत्रिक आधार का मजबूत करेगा।	9554925859 vimalshiv2018@gmail.com

All whatever unlawful activities is being conducted by terror camps , India has always opposed that perception not only this but India has united the whole nation against this unlawful activity as the latest example of it is IAF strikes on February 26 at terror camps where more than 250 armed persons were killed. As India will not tolerate this kind of activities.	Before doing the strikes outside the borders we need to monitor it in our self , people among us who are helping those terrorist to achieve their aims . We need to make sure that not a single kind of help will be provided to them , As in Pulwama attack the terrorists had rented a car in India before 10 days of attack loaded with RDX . 1816	Bhavya khanna	Uttar Pradesh	BIJNOR	India sets global narratives on Economic Offenders	The initiative of organising a mock youth parliament was very great idea. For bringing up the young talents n thoughts this should operate every year in India. Topics were very worthy of speaking on.	Since the topics were very deep logical n complex they obviously require time to get discussed completely. And on such stages we gather to discuss idea..not for elocution. Such complex n detail required ideas take time for complete interception from speaker to audience hence either the time boundation should be levied in a proper way or time limit should be slightly increased. We cant decide the result of any narrative or we cant totally share the suggestions or rectifications needed in schemes n policies in just 3 short n quick minutes. 1846	Yashi Singh	Uttar Pradesh	Sitapur	India sets global narratives on Terrorism	India has set global narratives on terrorism is majorly a fair statement. Starting from parliament to Mumbai attack URI and pulwama, India has faced many attacks and also given the answers to it like surgical and air strikes. India is giving the quick responses to the terrorism so that it could be vanish not only from india but also from world.	Border security should be kept tight. The politicians who encourages violations should be banned. The world need peace policy should be adapted by each country. Quick responses should be given and the person find to be terrorist should be punished quickly so that others get the lesson.	9506708848 Singhyashi2409@gmail.com

1882	Deepa Choudhary	Jharkhand	Ranchi	India sets global narratives on Economic Offenders	Global narratives set by India conveys strong message for a joint effort to deal with economic offenders.It calls for international cooperation to get back this offenders along with their property .In my view the fugitive economic offenders bill,2018 deals with all the specific issues concerned with it.But it does not address how do you enforce liquidation,confiscation of property in foreign country unless u have an agreement with that contracting state.This bill does not state how people could get back their money invested in those companies.overall it needs some improvement as well as complete support from all G-20 nations.	I think implementation of law is a key concern.The enforcement of bill across the border needs to be handled.Rules and regulations should be made to recognise the rights of unsecured creditors.And lastly investigation machinery to be set up which will support the prosecution.Above all support cooperation and proper law should be vested to get back economic offenders across borders.	9123197588	Deepachoudhary753@gmail.com

1891	ABHISHEK AKASH	Bihar	MADHUBANI	India sets global narratives on Economic Offenders	I believe globalization is generally good as globalization is a mean to put an end to poverty. India is now learning day to day and try to set a benchmark for Fugitive Economic Offenders Act 2018. Now It presented 9-points action plan against this act in the G-20 Summit. The investing agencies now easily have to take action to prevent Money Laundering. The action will taken under special court by issuing a notice against the offenders to appear for investigation within six weeks. For these some views, this act is more important for our country.	My first suggestion is that there is a need to manage the negative affects of rising prosperities against this Act. Avoid significant income inequalities and resulting social unrest. Common platform should be set up for these types of offences. Action must be taken strictly against these economic offenders. All citizens should help and suggests to the government for improvement of these type of plans.	7992373836	aaiaas2022@gmail.com

1894	Dheeraj Kumar	Bihar	Darbhanga	India sets global narratives on Climate Change	The easiest way to cut back on greenhouse gas emissions is simply to buy less stuff. Whether by forgoing an automobile or employing a reusable grocery sack, cutting back on consumption results in fewer fossil fuels being burned to extract, produce and ship products around the globe.	Think green when making purchases. For instance, if you are in the market for a new car, buy one that will last the longest and have the least impact on the environment. Thus, a used vehicle with a hybrid engine offers superior fuel efficiency over the long haul while saving the environmental impact of new car manufacture.		
1895	Aditya Ranjan	Bihar	Madhubani	India sets global narratives on Terrorism	Not a single country in the world left untouched by terrorism. State sponsored terrorism not only causes bloodshed but also establish apathy between groups. Terrorism isn't related to literacy or poverty, terrorism is a mindset a sadistic mindset to create disturbance in a system. Religious terrorism affect generations. An eye on BABBAN KHALSA groups and ISIS groups must be checked in India if any root is germinating.	Govt.must check every person who crosses the border. Internal funding system to be demolished and the criminals should be treated with 3rd degree. Communal harmony to be established and an eye must be kept on those who try to break it. Drugs outflow in the nation is a big strong pillar in all these, drug lords to be executed. Institutions who convey radical preachings and fund a mindset of terrorism must be shut down and the culprits were to be sentenced capital punishment	8651286577	aditya007srivastava@gmail.com

1897	Seema kumari	Bihar	Nalanda	India sets global narratives on Economic Offenders	Economic offender from my side means those who led our country's economical loss.. Either they are the common citizens or the rich like Malaya or Nirav Modi, I feel all those are economic offender of our nation. The difference is just that.. The most of the people are doing it on the small basis by not paying taxes to the govt.. And few are doing it on the large base.... Ignoring it on the small basis just instruct these people to do all these offences on large scale... So it should be started from the beginning to stop all these...	I suggest the country men to do their karma as a responsible citizen of Our country. To pay taxes to the govt.. And even govt should take strict actions against all the economic offenders so that they should have a kind of fear while thinking about all these crimes... Fugitive economic offender Law is really a great step against it but still I feel that it's not enough for them... They should have the feeling of being a man who could not able to get one time bread in a day only because of all these people or I would say all these criminals...	9771271335	Seemay2y@gmail.com

1907	Pranav Kumar Raja	Bihar	Darbhanga	India sets global narratives on Economic Offenders	<p>1.) Since we are living in a global village and it means that any small or big distortions happening in our economy will effect all the other countries which have any economic or political linkups with India.</p> <p>2.) There are nearly 31 economic offenders now who are hiding in foreign countries and the amount they owe is nearly equal to ₹40000crores.</p> <p>3.) The absence of such offenders from Indian Judiciary has several deleterious consequences. First , it hampers investigation in criminal cases second, it wastes precious time of court of law and , third it undermines the rule of law in India.</p> <p>4.) The problem is that the offenders acquire the visa of that country where they are hiding and in that case extradition is possible only when the offender has been recognised as criminals in court of both the countries.</p> <p>5.) It is very happy to know that since 2002 , 68 accused have been deported successfully from various countries.</p>	<p>1.) Indian government should fasten the judicial procedure on those who have been extradited successfully which will give a positive impact on the countries where extradition request is pending.</p> <p>2.) Government should also focus on recovery of the Debt amount. In many cases we have seen that accused has been arrested but the debt amount is not recovered.</p> <p>3.) 1921	Md Aamir	Bihar	siwan	India sets global narratives on Terrorism	Nature's disasters and their aftermath have engendered fear and fascination in human minds for thousands of years. They have shaped the earth, the climate, and the makeup of human civilization for perhaps even longer. As societies have expanded, they have adapted in an attempt to mitigate the effects of these devastating events, but all too often the propensity of disasters to overwhelm human adaptations has proved both humbling and daunting. The aftermath of a disaster is a particularly trying time for any government. A society vests much of its security within its government's ability to protect; thus, the effectiveness and efficiency of disaster preparedness and recovery measures are crucial to maintaining a government's legitimacy.	no suggestion	9631097537	md.aamirsi1234@gmail.com

1940	Nidhi Raj	Bihar	Samastipur	India sets global narratives on Terrorism	No country can be considered safe from terrorist acts. India has held to face the scourge of terrorism ,mostly originating outside our borders ,increasingly over the last two decades. The Mumbai attacks and its unsatisfactory aftermath provides a snapshot of what is wrong with India's efforts to fight terrorism through global governance processes. The Indian political and foreign policy establishments have an obsession with projecting India as a 'moral' power. The Mumbai attacks displayed a level of sophisticated planning that marks another milestone in the global jihad.	An effective measure to stop terrorists is to cut their sources of revenue and disrupt logistics. Refusal to negotiate with terrorists. Retaliatory raids on the bases of terrorists. Strict security measures should be adopted. The judiciary must deal with terrorism related cases quickly and punish the mass murderers.	9576537535	ladlyrani0209@gmail.com

1967	Simran chhabra	Jharkhand	Dhanbad	India sets global narratives on Terrorism	Terrorism is, in the broadest sense, the use of intentionally indiscriminate violence as a means to create terror among masses of people; or fear to achieve a religious or political aim. First of all, terrorism belongs to no religion. A terrorist is a terrorist with unhuman being mentality.	An effective measure to stop terrorists is to cut their sources of revenue and disrupt logistics. Nation should look into the trafficking of oil, golds, gems, cigarettes, and works of art. Nationalist feeling should be more than any religion.	8581054709 Simranbarbiechhabra7@gmail.com

2030	Kunal Bandhu Mishra	Bihar	Saran (Chapra)	India sets global narratives on Climate Change	India was chosen to be the pilot country for the Global Narratives project due to its global importance in relation to climate change and its strong civil society sector. The project was conducted in collaboration with Climate Action Network South Asia (CANSAs) and focused on finding language around climate change in general, renewables and adaptation.	India needs to introduce electric vehicles and also urgently strengthen its bus, rail and public infrastructure to move towards more sustainable means of transport. It has also set fairly ambitious renewable energy targets, but these come with their own set of challenges.	Mob:7991176775	Email: mishrakunalbandhu@gmail.com

2031	Ankit Kumar Singh	Bihar	Saran (Chapra)	India sets global narratives on Terrorism	No country can be considered safe from terrorist acts. Today, terrorist entities have links and operate across borders building networks; raising funds in various ways including internationally; propagating their ideologies of hate; recruiting from foreign lands; sourcing arms and weapons from distant providers and smugglers; exploit modern communication technologies that dissolve distances.	Under India's federal Constitution, the responsibility for policing and maintenance of law and order is that of the individual states. 2033	Praksh Raj	Bihar	Saran (Chapra)	India sets global narratives on Terrorism	Terrorism and insurgency are the unending battles India has been fighting since Independence. India has a good database on these organisations and their activities and valuable experience in dealing with them. Close interaction between the counter-terrorism agencies of India and countries of the southeast Asian region would, therefore, be of mutual benefit.	The intelligence agencies have an important role to play as the eyes and ears of the government in different communities to detect feelings of anger and alienation which need immediate attention. The importance of good, preventive human intelligence. This is easier said than done because of the difficulties in penetrating terrorist organisations, particularly of the religious kind. The importance of timely technical intelligence, which is generally more precise than human intelligence.	Mob: 703337700	Email:pad27600@gmail.com

2035	Akshya Kumar	Bihar	Saran (Chapra)	India sets global narratives on Economic Offenders	India has witnessed many scams and economic offences which have left an adverse impact on the Indian economy and also related banking. For example Lalit Modi, Vijay Mallaya. Coming to the Act itself, it has a variety of provisions including, but not limited to, declaration of a "fugitive economic offender" in respect of a person, attachment of the property of such person and bar over civil claims.	The Government Bill does not require the authorities to obtain a search warrant or ensure the presence of witnesses before a search. This differs from other laws, such as the Code of Criminal Procedure (CrPC), 1973, which contain such safeguards. These safeguards protect against harassment and planting of evidence. 2037	Atul Pratap Singh	Bihar	Saran (Chapra)	India sets global narratives on Terrorism	Terrorism in India, according to the Home Ministry, poses a significant threat to the people of India. At present it is a global issue. India play a partner role in counter terrorism on world platform.As part of India's continuing commitment to strengthen multilateral efforts to counter terrorism and support the work of the newly established UN Office for Counter Terrorism (OCT), the Indian government had this year announced a voluntary contribution of USD 550,000 for the OCT.	The importance of highlighting the positive aspects of the affected community or religion to prevent the build-up of a negative image of the community or religion in the eyes of the public. The importance of active interaction with the media to ensure that they do not make terrorist leaders appear like heros or prejudice the minds of the public about the affected community or religion or create problems for effective counter-terrorism operations. 2039	Ravi Kumar Pandey	Bihar	Saran (Chapra)	• Khelo India: A gateway for budding Sportspersons • Best time for Indian sportspersons to make a mark	The Khelo India programme has been introduced to revive the sports culture in India at the grassroots by building a strong framework for all sports played in the country and establishing India as a great sporting nation. In keeping with the Prime Minister's vision, Khelo India is expected to help scout young talent from the schools in various disciplines and groom them as future sports champions. It is a good initiative by government of India.	To get schools, colleges and community involved in sport, there shall have to be a large scale investment in sports infrastructure at the district levels. Regular events shall have to be held to encourage mass participation. Sports departments of the various states shall therefore have to work overtime – and lose a lot of sleep – to get things done. 2218	Shivam Naveen Mishra	Maharashtra	Mumbai	India sets global narratives on Terrorism	How India has changed from a defensive to offensive country to fight terrorism, and we and more aggressive national security to deal with these kind of situations, 2 protocol that are important to set in national security is , 1. Accept the enemy as it is and not how you wish to accept it and second is 2. You cannot defeat your enemy unless you define it. With these , we can really set out global narratives.	Results should be more transparent, with each students marks give to them after their presentation so that they can improve in that area.	+918286860545	shivammishragr8@gmail.com
2219	Zainab Ahmed	Maharashtra	Mumbai suburbs	India sets global narratives on Economic Offenders	I feel it was a lifetime opportunity for us students. We got to listen to so many other students and their opinions and ideas on different topics. My views on India's economic offenders are 1-India can improve its laws on economic offenders by immediately deporting the offender to the country back where the offence is taken place so as to face the court proceedings.	Every student in Every college must be made to participate and from them top 50. Should be selected. That will be called youth parliament in its real sense.	7887572322	zainabsalmani95@gmail.com
2220	KIRTI SANJAY KUMKUM THAKUR	Maharashtra	MUMBAI	India sets global narratives on Climate Change	India made many plans which actually worked to change the climatic conditions which are Ujjwala yojna, odd even formula, advertisement from Hindustan unilever , plastic banned all over india. This all things made a great impact on the climate changes of india.	The companies which produce multi layered plastic should be banned and also the production of that plastic should be banned because still in my area and other area too the plastic bag are still used and like Thailand, China we should use the vehicle to spray water in the air to control air pollution.	8652312179	Kirtit302@gmail.com

2241	Abhishek Mankar	Maharashtra	Pune	India sets global narratives on Terrorism	India have set global narratives while giving loud and clear message of "India stands strong, on all parameters". We have set examples dealing with strikes and retaliating with equal enforcement in 1965,72 and 99. Even at the terrorists activity of 2001-06 and 08. But at a certain point of time especially with the dealing with Pakistan, we need to stimulate that people are deing on both sides. There need to a permanent solution than let it be war or political measures.	India produces highest no of engineers every year, the no of engineering graduates per year are equal to the population of Australia, still we need to Import 70-80% of basic armour from different countries. The resources can be imported but we are technology rich, we need to strengthen our DRDO. our sufficient part of GDP is given to defense sector just we need to bring quality resources.	7057403808	abhiauthor619@gmail.com

2394	LIONEL NORVIN NESTOR	KERALA	KOLLAM	India sets global narratives on terrorism	India's counter-terrorism attacks into three significant threats: the national separatist movement in the 80s, the territorial separatist movement, also in the 80s and which continues even today and finally, religious fundamentalist movements, which surfaced in the 90s.	So, we have the intelligence to counter attack terrorism, but we are crippled and immobilised to mutually cooperate and engineer against terrorism. However, from all of this diverging trajectories, we are able to rise, realising the mistakes that we did not leave behind, especially in counter terrorism.	9074081393	lionelnestor99@gmail.com
2395	A S KEERTHANA IYER	KERALA	KOLLAM	India sets global narrative on climate change.	Global narratives are a pioneering initiative to test and develop climate change messaging and narratives. India was chosen to be the pilot country for the Global Narratives project due to its global importance in relation to climate change and its strong civil society sector. A report by the IPCC has warned of disastrous consequences if current trends of climate change are not reversed immediately	It's high time we humans should work together for a change in our environment else we humans will be endangered.	9048960043	keerthanaiyertvm@gmail.com
2396	MUHSINA M	KERALA	KOLLAM	India sets global narrative on climate change.	climate change is a change in statistical distribution of weather patterns when that change last for an extend period of time.? Due to the climate changes in our country mainly the major problems are happening in the agricultural sector. And also in health sector. In agricultural sector, the climate changes affect badly in such a way that it will affect the rate of yield and it will cause diseases in the cultivated crops.In health sector, many of the people will get sick due to the adequate change in climate.many allergic problems are caused by the climatic changes.	As we all know, if we consider a family consisting of five members, all the five members are working or studying and all of them are owning vehicles, then they will use all the vehicles daily. To reduce air pollution we can make use of public vehicles.	9188044252	ptharikrishnan20@gmail.com

2398	ATHIRA G	KERALA	KOLLAM	India sets global narrative on climate change.	what are the main issues that happened recently in our country due to climate change? The most recent one is flood. It was my previliage to participate in the need assessment program at pandanadu, a flood affected area in kerela. The fear I had seen in the people at pandanadu made me to choose this topic . one can say that it was a man made disaster because we produced that much pollution directly or indirectly to the environment, it will be one among the causes behind the flood .And the next is fog formation.	We are educated people and we know the resources that our country is having ,not only for us but also to our future citizens. Then why should we keep calm towards pollution. Do something against the pollution causing climate change!	9188707019	athiragath@gmail.com
2399	AKHILA RAJ	KERALA	KOLLAM	India sets global narrative on climate change.	Global climate change has already had observable effect on the environment including shrunken glaciers, breaking of ice on rivers and lakes, shifting of plants and animals ranges. Taken as a whole range of published evidents indicate that the net damage cost of climate change are likely to be significant and to increase overtime.	We have to develop a culture of living in which we should live in acordance with the nature.	9745008462	akhilaraj2701@gmail.com

2401	ARSHAD A M	KERALA	KOLLAM	India sets global narrative on climate change.	Earth's changing atmosphere, and its national and global impacts, wound up in the headlines time and again during 2018. There was plenty of coverage on the efforts of governments, companies, and individuals to mitigate and adapt to climate change. Others were working to minimize restrictions on fossil fuels and the greenhouse gas they pumped into the air in record amounts this year.	We should include the importance of environmental protection in syllabus and must have a body to observe whether school and colleges strictly following the guidelines.	9496247235	arshadkottoor3@gmail.com
2402	AISWARYA V GOPAL	KERALA	KOLLAM	India sets global narrative on climate change.	With every year, India receives more proof that the effects of climate change are already here, and they're deadly. This year, over 200 Indians died in a single month because of storms, thunderstorms, and lightning which have all been intensifying over the years. Many states have also been swept by unrelenting heatwaves over the past few weeks, with temperatures soaring up to 47 degrees Celsius.	Everybody should worktogether to protect our earth.With renewable energy the Indian public will longer be dependent on the centralized power companies with their huge polluting power plants.	8590542330	aishuz19962achus@gmail.com

2403	ANANDA KRISHNAN P	KERALA	KOLLAM	India sets global narratives on terrorism	Terrorism and insurgency are the unending battles India has been fighting since Independence. Even before 9/11, arrangements for intelligence-sharing on terrorism amongst the agencies of different countries existed. 9/11 brought the realisation that terrorism is an absolute evil whatever be the cause and that unless the intelligence agencies of the world network themselves as effectively as the terrorist organisations, they might not be able to eradicate this menace. This has improved intelligence-sharing.	There is an assortment of collectives and individuals with a vested interest in terrorism and they have defined the term in the form that suits their bias or perspective. They include organisations and alliances of nations, academics and researchers, the legal profession, the health profession, counter-terrorist and law enforcement agencies, governments that wish to protect their citizens, governments that wish to repress their citizens, terrorist groups and the media.	9074719506	ak1717656@gmail.com

The vision of the revamped Khelo India is to infuse sports culture and achieve sporting excellence in the country. The mission as stated in the revamped scheme is to encourage sports for all thus allowing the population across gender and all age groups to harness the power of sports through its cross-cutting influence, namely, holistic development of children & youth, community development, social integration, gender equality, healthy lifestyle, national pride and economic opportunities related to sports development.	The Khelo India programme has been introduced to revive the sports culture in India at the grass-root level by building a strong framework for all sports played in our country and establish India as a great sporting nation.	8943965431	shibudavid4321@gmail.com

"If the world doesn't change course by 2020, we run the risk of being runaway by climate change ".Climate change moves much faster than we are. 2407	SREEPARVATHY G	KERALA	KOLLAM	India sets global narratives on terrorism	The counterterrorism activities against the national separatist movement was a total success. The second one was a partial accomplishment and and the third one was an utter failure. We have come to a point where we need to assert that Indian counter-terrorists failures are not failures of intelligence but failure to act on intelligence. From all this crucial counter terrorist assumptions, feeble responsiveness to strategic intelligence anticipates the defeat of intelligence.	The use of the Internet and social media to recruit and radicalize individuals to violence means that conventional approaches are unlikely to identify and disrupt all terrorist plots.	9446590548	parvathyg1705@gmail.com
2408	AKSHARA S ASOK	KERALA	KOLLAM	India sets global narratives on Economic Offenders	I spoke about the topic "India sets global narrative on economic offenders" .The fugitive economic offenders' law came into force in August last year.According to this law 'A person can be named an offender under this law if there is an arrest warrant against him or her for involvement in economic offences involving at least Rs. 100 crore or more and has fled from India to escape legal action.' I spoke about the merits and demerits of the strategies taken by Indian government inorder to prevent economic offences.	In this context, maybe it's time for us to restore an accusatorial system of justice, and perhaps include offences under the Prevention of Money Laundering Act (PMLA) and other laws pertaining to economic wrongdoing in the bailable category.	8943237280	aksharasok1997@gmail.com

2409	ANU JOSHUA	KERALA	KOLLAM	India sets global narrative on climate change.	Global Narratives is a pioneering initiative launched jointly by Climate Outreach and Climate Action Network International (CAN-I) to test and develop climate change messaging and narratives. It pilots a new model of cooperative design that avoids the high cost of qualitative research by training national partners to conduct research themselves with their own audiences based on Climate Outreach's Narrative Workshop methodology. This academically-based qualitative method invests in the skills and capacity of national level organisations and makes high quality research affordable in low-income countries.	India was chosen to be the pilot country for the Global Narratives project due to its global importance in relation to climate change and its strong civil society sector. The project was conducted in collaboration with Climate Action Network South Asia (CANSAs) and focused on finding language around climate change in general, renewables and adaptation. The research findings are provided in the accompanying report: Communicating climate change in India: a Global Narratives project and are being shared within South Asia and internationally by CAN-I, CANSAs and Climate	7909126758	anujoshua2000@gmail.com

Climate change is basically a modification in the distribution in the pattern of the average weather conditions on the earth. As the earth's climate is dynamic and always changing through a natural cycle, the world is now worried about the changes that occurring today have been speeding up and seriously affecting human's lives. Several factors which contribute towards the climatic changes are as follows Solar radiation Volcanic eruptions Human activities Plate tectonics Orbital variations etc	Furthermore, the changes in the climatic pattern will adversely affect our biodiversity, which is very important for the plants and animals to maintain their habitat and ecosystem. The world is at an inflection point in the climate crisis.2 Unless determined and concerted action to reduce greenhouse gas (GHG) emissions is taken globally—and immediately—global warming could spiral to irreversible levels. Scientific evidence gets more definitive by the day that runaway climate change could set in, if global emissions of GHGs are not capped, and then reduced sharply to ensure atmospheric GHG concentrations stay below identified stabilisation levels.	A promising framework for a global emissions compact is offered, namely a carbon budgets approach, wherein the remaining carbon that the atmosphere can hold at a maximum, is apportioned to each country according to its “fair share”, in proportion to its population after allowing for historical emissions	7510988416	abhijiths699@gmail.com

2422	ANGEL M JOSE	KERALA	KOLLAM	India sets global narratives on terrorism	Terrorism clearly has a very real and direct impact on human rights, with devastating consequences for the enjoyment of the right to life, liberty and physical integrity of victims. In addition to these individual costs, terrorism can destabilize Governments, undermine civil society, jeopardize peace and security, and threaten social and economic development. All of these also have a real impact on the enjoyment of human rights	These practices, particularly when taken together, have a corrosive effect on the rule of law, good governance and human rights. Respect for human rights and the rule of law must be the bedrock of the global fight against terrorism. This requires the development of national counter-terrorism strategies that seek to prevent acts of terrorism, prosecute those responsible for such criminal acts, and promote and protect human rights and the rule of law. As said by Mahatma Gandhi "violence should be the law for animals and thus non-violence should be the law of humans".	According to my view we must take necessary steps to control the two basic threats which lead to terrorism, by doing so we can decrease the number of terrorists and their cruelty towards the people.	8547363499	gopikaanilkumar10@gmail.com

2455	Gijo Johnson	Kerala	Idukki	india sets global narratives on economic offenders	India has passed strict laws in facing fugitive economic offenders. The Fugitive Economic offenders act is a step in the right direction. This country has a large number of economic offenders. The top 3 economic offenders alone have swindled 21000 crore rs. The view of the people has become lenient in the case of economic offenders.	The view of the people should change. People should learn to see economic offenders for the threat they are. They should be part in law making against these offenders. The fugitive economic offenders act of 2018 must be made aware to more people.	9947185695	gjkurias@gmail.com

2456	Sijin Joseph	Kerala	Idukki	Khelo India: A gateway for budding Sportspersons • Best time for Indian sportspersons to make a mark	Sports is not a popular profession in India. People have a sort of inhibition towards this. Khelo India provides financial benefit to students who are good at sports. These financial benefits will help them be better sportspeople. It is indeed a good time for Sportspersons to make a mark.	Give more importance to sports in the budget. More initiatives must be present at educational institutions for promoting sports. The financial system must be rigged so as to help the flow of money to sports initiatives.	9656459197	sijinjoseph111@gmail.com
2457	Mathew	Kerala	Idukki	India sets global narratives on Terrorism	Terrorism is present at many levels. India has offered a five-point formula in the UN regarding this. No country can be considered safe from terrorist acts. Today, terrorist entities have links and operate across borders building networks; raising funds in various ways including internationally; propagating their ideologies of hate; recruiting from foreign lands; sourcing arms and weapons from distant providers and smugglers.	At the United Nations, over the last two decades, some practical steps to counter terrorism have been mandated by the UN Security Council through its establishment of specific Sanctions Committees. These have had limited success. Such efforts have also run into political difficulties due to differing strategic considerations of major powers. There must be a common emotion against terrorism and India must stay at the forefront of the war against terrorism.	9539513011	mathew.puthuppally@gmail.com
2458	Fleming Mathews	Kerala	Idukki	Khelo India: A gateway for budding Sportspersons • Best time for Indian sportspersons to make a mark	India is marching forward in sports. Khelo India is a program that will help budding sportspersons throughout India. This is the best time for Indian sportspersons to leave a mark. Sports is considered an unstable and futile profession in India. These programs can change that.	We have to create more opportunities for sportspersons. The CSR schemes of various companies can be used for this purpose. Using this money more scholarships can be created for sportspersons. If we can make people believe that sports is not an unstable profession, India can be a haven for talented sportspeople.	8281020210	flemingmathews@gmail.com

2459	Jasrel Thaddeus	Kerala	Idukki	India sets global narratives on Climate Change	Climate change is real. India has acknowledged this fact. It has signed many agreements with various countries to tackle this problem. The protection of forests and wildlife is not an issue that should be discussed tomorrow. This is an issue of utmost importance.	Stricter laws must be implemented for environment protection. We must make people aware of the problems of climate change. Lower carbon emission is the primary concern. More CNG and electric cars which are affordable should reach the market. Tax exemptions should be provided for such companies.	8289906370	jasrel.thaddeus@gmail.com
2460	Vandana Vinod	Kerala	Idukki	India sets global narratives on Climate Change	Environment protection is important. Climate change is evident today. Do nothing and we shall perish. Laws have prevented us from falling into the pit of full fledged environmental destruction. It should continue to do so.	Climate change must be tackled at two aspects. One at the aspect of law. The other at general awareness. When these aspects are tackled we will begin to move forward.	9074987320	vandanavinodmangalam@gmail.com
2461	Prabhul Suresh	Kerala	Idukki	India sets global narratives on Terrorism	India has had modest success in its efforts to internationally isolate Pakistan as a state-sponsor of terrorism. More effective in this regard has been Pakistan's own duplicity vis-à-vis the West. Indian discourse has not resonated abroad because it relies too heavily on respect for vague global norms rather than adherence to specific national interests, which are more easily comprehended by foreign governments. New Delhi's previous failures to respond militarily to cross border terrorist attacks have been interpreted as weakness by both Pakistan and the wider international community.	The thrust of Indian diplomacy, both at the level of government officials interacting with foreign counterparts, and professional groups such as academic and journalistic networks, must be to investigate and expose Pakistan as a rogue state that sponsors cross border terrorism to externalise its domestic failures. Internationally peer-reviewed articles on Pakistani civil-military relations, drug-trafficking, Islamist politics, Baluch separatism and violent crime in Karachi, must be authored. These must be inserted into academic networks for aggressive dissemination to European and North American scholars researching on South Asia.	9074739882	prabhulsuresh143@gmail.com

Especially in a pluralistic nation like India it is the need of the hour to tactically handle the ongoing terrorist engagements.3. India's FIVE POINT FORMULA to tackle Global Terrorism and many similar actions will be really beneficial in the process of moving forward against a common enemy of all countries	1. Plucking the roots of AGGRESSIVE NATIONALISM from the mind of the citizens and sowing the seeds of INTERNATIONALISM (the vision of Jawaharlal Nehru) will bring much change in the mentality of the citizens towards other nations and thus reduce the need to adopt terrorism and attack one another.2. In India it is really crucial to close all kinds of loopholes that will lead our youth towards terrorism. Letting them have proper education and job opportunities are the two most important factors because lack of the former two factors might create an anti-national feeling.3.It is more than important not to kindle	9497795904	lekshmisynath@gmail.com

To trace or bring back such economic offenders our nation make pact between other nations. 4. Before lending loans the bank must check if the person have the ability to repay 5. The laws against economic offenders should be powerful.	7593956020	sreeparvathi52@gmail.com
2588	Jyothi.P. M	Kerala	Alappuzha	India sets global narratives on Economic Offenders	1. Steps adopted by India to control economic offenders is really appreciable. 2. Responsibility of government is to provide proper governance. 3. Proper governance is reduction of greed and increase in satisfying the needy. 4. Therefore, it's really need of the hour to find out solutions to eradicate this evil.	1. Required suggestion commence from education. Young should be nurtured properly, so that they could accept good and avoid bad. Cognitive process of good thinking should happen from youngsters. 2. All rules and regulations are made for We, people. Rather than making stringent laws, the offender should be made to undergo through proper penal provisions and make him aware of the consequences of his deed. This might act as a deterrent force to many 3. Proper check and balances to be adopted which loaning huge amount to a party	9142790393	jyothipm1993@gmail.com

2591	Aswin Binu	Kerala	Alappuzha	India sets global narratives on Terrorism	In an interdependent, interconnected world, struggling to build fraternity, economic cooperation and human security, there is no place for the Cold War policies of killing and threats to kill and policies of exceptionalism and superiority. The world has changed. People do not want to be divided and they want to see an end to violence, militarism and war.	Nonviolence is the personal practice of being harmless to self and others under every condition. It comes from the belief that hurting people, animals or the environment is unnecessary to achieve an outcome and refers to a general philosophy of abstention from violence. This may be based on moral, religious or spiritual principles, or it may be for purely strategic or pragmatic reasons	7559952605	aswinbinu2605@gmail.com

Thorough the “Khelo India” programme the country will be able encourage sports all over the county, thus allowing the population to harness the power of sports through its cross-cutting influence, namely, holistic development of children & youth, community development, social integration, gender equality, healthy lifestyle, national pride and economic opportunities related to sports development. 3.Giving special stress to identify sporting talent from tribal, coastal and remote areas are an applauding decision.	The youngsters living in the coastal area, especially from the fisherman community should be professionally trained for the sports like swimming, rowing etc.2. The tribal youngsters should be professionally trained in Archery. Also their ability to climb hills and trees give them special courage to participate in adventure sports, if they are professionally trained and provided healthy and nutritious foods. 3.Talent search from the ‘Nat’ community is to be done. 2599	Joe John Mathew	Kerala	Pathanamthitta	India sets global narratives on Terrorism	1. Terrorism is an ugly practice which is now very prevalent in the World. 2. Terrorism is, in the broadcast sense the use of intentionally indiscriminate violence as a means to create terror among masses of people; or fear to achieve religious or political aim. 3. It seems a necessity when looking through the eyes of the activists, it is clear from the fact that many countries are giving a silent green signal for terrorism. 4. India is one of the countries where the rate of terrorism is high, very badly affecting by terrorist attacks, the recent Pulwama attack in an example which made martyrs. 5. India has a position in the list of five major countries where terrorism takes place. 6. The terrorist attacks in India is increasing day by day. The people affected and death rate in terrorist attack is increasing yearly. More than one hundred and fifty terrorist groups are working in India.	1. The only outcome of terrorism is pain, loss of lives, loss of money buildings etc. The public properties destroyed can be reconstructed at any cost, but the lost lives, the happiness in their families cannot be made again. 2. India had set many decisions against terrorism. POTA (Prevention of Terrorist Activities) act in 2002 is the act that put forth the fingers against terrorism. 3. In our country religion is a main factor. Sometimes religious teachings also becomes the reason behind terrorism. Proper religious teachings should be given, that says about the love, concern about others, life etc. 4. Proper teachings should be given	9846395768	joejohnmathew285@gmail.com

2629	Mohin Varghese Thomas	Kerala	Kottayam	Terrorism	India has had modest success in its efforts to internationally isolate Pakistan as a state-sponsor of terrorism. Indian discourse has not resonated abroad because it relies too heavily on respect for vague global norms rather than adherence to specific national interests, which are more easily comprehended by foreign governments. New Delhi's previous failures to respond militarily to cross border terrorist attacks have been interpreted as weakness by both Pakistan and the wider international community.	The thrust of Indian diplomacy, both at the level of government officials interacting with foreign counterparts, and professional groups such as academic and journalistic networks, must be to investigate and expose Pakistan as a rogue state that sponsors cross border terrorism to externalise its domestic failures. Internationally peer-reviewed articles on Pakistani civil-military relations, drug-trafficking, Islamist politics, Baluch separatism and violent crime in Karachi, must be authored. These must be inserted into academic networks for aggressive dissemination to European and North American scholars researching on South Asia.	7025207769	mohinthomas664@gmail.com

2635	Sreelakshmi M	Kerala	Kottayam	Terrorism	India is a victim of terrorism than any country in the world. The world realised the effects of terrorism only after 9/11. But India is a victim of it since 1990's. The Kashmir issue, Maoist issue and the Pakistan backed terrorism is the problem that India faces today. There are many different forms of terrorism.	India is a victim of terrorism for the past three decades. Thousands of innocent civilians had been killed, Global community must defeat terrorism. Incidents like the Pulwama attack must never occur in future.	8281396531	sreelakshimurali1999@gmail.com

2636	Anu Krishna V	Kerala	Kottayam	Climate Change	Climate change and Environment protection is important. Climate change is evident today. Do nothing and we shall perish. Laws have prevented us from falling into the pit of full fledged environmental destruction. It should continue to do so.	Government should take adequate measures to tackle climate change. The illegalminning of sand and quarries should be stopped immediately. Water should be allowed to flow freely.	7994515751	iam6i8here@gmail.com
2637	Saikrishna K S	Kerala	Kottayam	Climate Change	Climate change is a fact today. If we did not take it seriouslywe shall perish. Stronger laws are needed to prevent enviornmental destruction.	One of the greatest dangers to humanity is climate change. It risks the life of every individual on earth. India and the poor countries should address it by forming a consortium of third world countries.	9539789440	saikrishnas222@gmail.com
2638	Ben Thomas George	Kerala	Kottayam	Economic Offenders	This country has a large number of economic offenders. The top 3 economic offenders alone have swindled 21000 crore rs. The view of the people has become lenient in the case of economic offenders.	The view of the people should change. People should learn to see economic offenders for the threat they are. They should be part in law making against these offenders. The fugitive economic offenders act of 2018 must be made aware to more people.	8593051345	benthomasgeorge7899@gmail.com
2639	Mathews Joshy	Kerala	Kottayam	Terrorism	This is one of the biggest challenges that India faces today. Terrorism has its origins since from the Soviet Invasion of Afganisthan in 1980's . India is a victim of terrorism since 1990's.	The world community only recognised the horrors of terrorism only after 9/11. But still there are differences when it comes to state sponsored terrorism. Pakistan is a classic example to it.	9495016260	mathewjoshy88@gmail.com
2640	Parvathy S	Kerala	Kottayam	Climate Change	India has acknowledged this fact. It has signed many agreements with various countries to tackle this problem. The protection of forests and wildlife is not an issue that should be discussed tomorrow. This is an issue of utmost importance.	Stricter laws must be implemented for environment protection. We must make people aware of the problems of climate change. Lower carbon emission is the primary concern. Tax exemptions should be provided for such companies.	8289917591	parvathysnair2000@gmail.com

2641	Prathibha P P	Kerala	Kottayam	Khelo India	Sports is not a popular profession in India. People have a sort of inhibition towards this. Khelo India provides financial benefit to students who are good at sports. These financial benefits will help them be better sportspeople.	Give more importance to sports in the budget. More initiatives must be present at educational institutions for promoting sports. The financial system must be rigged so as to help the flow of money to sports initiatives.	9947556411	prathibhapp2018@gmail.com
2642	Preedhi P P	Kerala	Kottayam	Khelo India	India is marching forward in sports. Khelo India is a program that will help budding sportspersons throughout India. This is the best time for Indian sportspersons to leave a mark.	We have to create more opportunities for sportspersons. The CSR schemes of various companies can be used for this purpose. Using this money more scholarships can be created for sportspersons.	9947556412	preedhipp2018@gmail.com
2643	Tona Elisa Scaria	Kerala	Kottayam	Khelo India	India is a country having significant youth population. But the results of sports in India is very poor. Even the smaller countries excel high in sports. There aren't much infrastructure for sports in India. It must be given more attention. The national and state budgets must be increased for sports.	In countries such as the United States and China the best talented are hired from the school levels. India should learn from countries like USA and China on how they have developed their sports. Best athletes can be found from the villages and the government should meet all their expenses. And they need to be trained well.	910418774	tonaskaria53@gmail.com

2645	Elizabeth Varghese	Kerala	Kottayam	Climate Change	It is one of the grave threats to humanity. It can change the lives of people for the generations to come. It takes all lot of effort in dealing with climate change.	The polluters must pay. The Kyoto protocol must be implemented. The rich countries must pay more and more carbon taxes.	9656808131	elizabethkdr@gmail.com
2646	Sayana Shiju Thomas	Kerala	Kottayam	Climate Change	The world has been witnessing climate change since 1980's. India and the developing countries are victims to it. India's population living in the coast line are vulnerable to climate change.	Climate change is a man made phenomena, man can also offer its solutions. The changing lifestyle of man can reduce the problem arising out of climate change.	9847990415	sayanashijuthomas@gmail.com
2647	Gayatri Sivakumar	Kerala	Kottayam	Economic Offenders	India is a country with massive inequality. While the top 100 billioners control a large of its wealth the burden is passed to poor and the middle class. Every penny that is wasted is accountable to the common man.	The legal system in India is weak so that the economic offenders can break through. In the western nations the offenders will not go free for such kind of acts. The punishment must be strict.	8778390719	gayatrisiva99@gmail.com
2648	Angel David	Kerala	Kottayam	Terrorism	This topic is of utmost relevance to India today. Many people have died due to terrorism in India. India's dealing with terrorism is far from satisfactory.	At the United Nations, over the last two decades, some practical steps to counter terrorism have been mandated by the UN Security Council These have had limited success. Such efforts have also run into political difficulties due to differing views of major powers.	9526435747	angeldavis@gmail.com
2649	Abel Koshy Joji	Kerala	Kottayam	Climate Change	One of the extreme dangers to humanity. I am not very sure whether India has set a global narrative on climate change. But India's fight against climate change is satisfactory.	Keeping aside its political differences India must work with countries like China and the different nations of South Asia in order to tackle climate change. It should use new technologies that are adaptable to climate change. It must also focus on renewable energy.	8138831083	abelkoshy14@gmail.com

2694	Chandana Vavachan	kerala	Thrissur	India sets global narratives on Terrorism	It is a time when India has to put up with all sorts of terrorism be it on the border or inside itself.It is quite clear that India's take on terrorism and the counter terrorism policies it takes are supported by other nations thus isolating Pakistan ,thanks to the governments over the years and their policies.Nothing can break the back of our nation considering the fact that it has emerged to be the 4th powerful army in the world,with airforce and navy close at heels.True, a few attacks have happened but the counter attacks have always kept the enemies away.India is safe with its army,navy and air force and if any conflicts disturb your sleep,blame it on insider's politics and not on our army.	Political parties have to stop taking responsibility for the army's actions and let them be. They have to make sure that the safety of our lifeguards are well in hand.Actions have to be taken to reduce attacks by political parties. India's parties have to be controlled.Army has to be given importance.	7994988736	chandनाववचान13@gmail.com

2696	Vaidehi Rajagopalan	Kerala	Thrissur	India sets global narratives on Terrorism	The use of armed forces and malpractices to attain financial and political profits can be defined as terrorism. There were many remarkable attempts from the part of government which found victory over terrorist activities.	I would like to suggest all my fellow beings to follow a feeling of oneness instead of using armed weapons to fight against terrorism. We should also be concerned about the successful antiterrorist activities in spite of mourning for the terrorist attacks we faced.	9747191553	vaidehi5410@gmail.com

2699	Manu.M	Kerala	Thrissur	India sets global narratives on Terrorism	Now India has massive force against terrorism. Youth has a well wish on peaceful nation. The terrorist activity in nation is not only by an external agency, but also by internal forces. But the people in India do not understand the wolf among the elite class.	Please do not victimise soldiers in political play. Intensive patriotism may create break in the unity of the country. Governing body must take strong decision against internal attack. Increase the concentration on internal security and decrease the communal clash respect to religion. Please do not make religion as vote bank, then avoid diversity.	8891220109	madathilmanu.m@gmail.com

2700	Stephy Baby	Kerala	Thrissur	India sets global narratives on Climate Change	Since India stands fourteenth in the Global climate risk index and, as top 13 out of 15 most polluted cities is from India it is high time that we take actions to curb down the chaos created by climate change.Uncontaminated drinking water and blue sky without dark patches are today a dream for human beings. When report says that the average annual temperature has increased by 2 degree Celsius in the last three decades we must rethink to paint the nature green again.	Though summits and global plans are many, nothing has come into actions.Strict policies and it's strong implementations are necessary in order to bring down the number of vehicles on roads, to reduce massive deforestation and illegal mining and quarrying. People should be taught to respect the laws so that simultaneously they will respect nature too. If actions are still in queue then we may choke to death.	9495759537	kunjolbaby@gmail.com
